EDUCATION

Western University – Ivey Business School

London, ON

Software Engineering & Honours Business Administration Candidate, Dual Degree

Expected Graduation: April 2028

- **GPA:** 3.9/4.0
- **Activities:** Men's Varsity Curling Team (First String) and Under-20 Ontario Men's Curling Team
- **Awards:** OUA Academic Achievement Award (2025), **U SPORTS Academic All-Canadian (2025)**, Dean's Honour List (2025), Scholarship of Distinction (\$3,500), Ontario Winter Games (Mixed Doubles)–Silver Medal

EXPERIENCE

Software Engineer Intern

Toronto, ON

Aureon Stocks

June 2025 – Aug 2025

- **Engineered** Python backend systems to process over **500** Reddit and Twitter posts, developing scalable data pipelines that enabled efficient financial sentiment analysis for AI-powered investment tools.
- Integrated Ollama-based NLP models to summarize financial discussions and generate community sentiment scores, filtering irrelevant content to improve the quality and relevance of AI-generated investment insights.
- **Optimized SQL database queries by 15%** through query restructuring and database tuning, improving data retrieval speed and increasing backend efficiency for financial analytics.
- Evaluated multiple AI models through iterative experimentation and performance testing, comparing approaches for financial sentiment analysis to identify the most effective solution for deployment.

LEADERSHIP

Aquatic Supervisor

Toronto, ON

Bayview Golf and Country Club

May 2022 – Present

- **Earned two promotions** over five summers—from Lifeguard & Swim Instructor to Deck Supervisor to Aquatic Supervisor—through consistent leadership and operational performance, culminating in responsibility for overseeing the club's aquatic operations.
- Led daily operations of the aquatic facility by **supervising a team of 12 lifeguards**, enforcing safety protocols, and coordinating emergency preparedness, maintaining high safety and service standards throughout the season.
- Conducted interviews, hired **3 of 5 candidates**, created staff schedules, and trained **12 lifeguards**, building a well-prepared team capable of delivering consistent service and maintaining operational coverage.
- Planned and coordinated aquatic programming and major club events, collaborating with multiple departments to deliver engaging experiences for over **100 members** during peak events such as Canada Day.
- Resolved staff conflicts and member concerns through proactive communication and problem-solving, fostering a collaborative work environment while maintaining high levels of member service and operational efficiency.

PROJECTS

Time-Travel Game Development (Unity Team Project)

Software Construction

- Designed and implemented a multi-level 3D Unity game within a six-person development team, applying object-oriented architecture to build scalable gameplay and progression systems.
- Developed core gameplay systems including enemy AI, puzzle mechanics, player abilities, and timer-based features, integrating stealth, parkour, and combat into a cohesive gaming experience.
- Collaborated with five teammates using Git version control and structured debugging workflows to resolve integration issues, delivering a fully playable game featuring progression systems, UI, and win/loss functionality.
- Tech: Unity, C#, Object-Oriented Design, Git, Debugging & Testing Tools, Game Development, Team Collaboration

SKILLS & INTERESTS

Languages: Python, Java, JavaScript, SQL, HTML5, CSS3, C#

Frameworks: React, Node.js, Next.js, Unity

Data & AI: NLP, Machine Learning Algorithms, Web Scraping, Ollama, JSON Parsing

Tools: Visual Studio Code, **Supabase**, IntelliJ IDEA, Git, GitHub, Scene Builder, Excel

Interests: Under 20 Men's Ontario Competitive Curling, Pickleball, Golf, Tennis, Swimming, Fitness, Formula 1
